

Habitat/Characteristics

I live near the shore where the waves crash. Because of the waves I must constantly swim. I love to eat small fish, crabs and shrimp.

.

Habitat/Characteristics

I live near the shore on a sandy bottom. I eat small crabs and shrimp. I lie on the bottom and rarely move fast.

Habitat/Characteristics

I live in the open ocean so I swim constantly. I eat things near the surface of the water.

Habitat/Characteristics

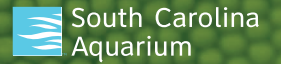

I live in the salt marsh. I eat small invertebrates from the pluff mud. I do swim fast sometimes to get away from predators, but most of the time I don't.

Habitat/Characteristics

I live on the rocky seashore. I eat fish that are on the surface. I am a strong swimmer, but not very fast.

Habitat/Characteristics

I live in holes on the coral reef. I eat large fish that I dart out to catch. I like to hide in crevices.

Habitat/Characteristics

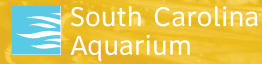

I live in the kelp forest so I like to weave among the kelp pieces. I eat fish in front of me. I am happy to just hang around so I don't go anywhere fast.

Habitat/Characteristics

I live on the coral reef but I do swim quickly. I eat algae and small fish.

Habitat/Characteristics

I live in the open ocean. I constantly swim so I can eat large fish.

Habitat/Characteristics

I live on the sandy bottom. I like to hide in the sand. I eat things underneath me that I cannot see because my eyes are on top of my head. I do have to swim to get food.

Habitat/Characteristics

I live on the coral reef. I hide from predators as well as eat the coral. Because it's a tight fit in the coral, I don't need to be too fast.

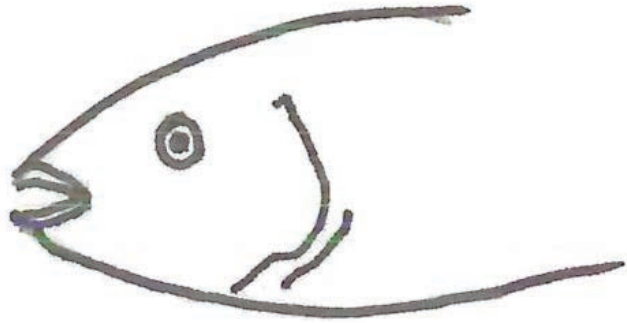

Habitat/Characteristics

I live on the reef and eat small pieces of algae. I swim around all day never going too far.
